

**PT. RIA KARYA
ELEKTRINDO**

Company Profile & Product Overview

WHO WE ARE

PT. Ria Karya Elektrindo is the newest addition to RISACORPS group. Based in Surabaya, East Java of Indonesia, PT. Ria Karya Elektrindo is dedicated to bringing excellent customer service and high quality electrical components to serve Central Java & Kawasan Indonesia Timur. Being diverse on electrical product category allows us to provide a one-stop shopping. Well-known brands we offer are Mean Well, PowerNex, KSS, ABB, Hitachi, Panasonic, Weintek, Togami, Max Asia, Nidec Shimo, and Weidmuller.

We stock all of our products at our warehouse in Romokalisari and have the capability to perform the best delivery performance. We staff on site engineers and our salespeople go through several technical training seminars a year to provide customers with the most complete service.

MISSION

PT. Ria Karya Elektrindo is committed to providing the highest quality products, competitively priced, with services fulfilling our customers expectations. We will continue to invest in facilities, systems and highly trained technical personnel providing added-value to our business relationships.

VISION

To be recognized as the most trusted, innovative, and reliable distributor of integrated electrical products and service solutions to customers, staff, and suppliers in the markets we serve and pursue.

CORE VALUES (5R)

Rajin
Resilience

Rangkul
Reliability

Rawat
Respect

Respons
Resolve

Ringkas
Resourcefulness

To fulfill our vision and goals, PT. Ria Karya Elektrindo will:

- ✔ Commit to on-time delivery, guaranteed technical support, and long-term supply of products with the best market conform pricing.
- ✔ Supply a wide variety of products for continual growth.

Why Choose Us?

One Stop Solution for Electrical Automation

Guaranteed Authenticity

Vast Experience

Speedy Delivery

Care and Prompt Response

Order of Any Size at Competitive Price

PT. RIA KARYA
ELEKTRINDO

Product Overview

MEAN WELL

MEAN WELL is a leading switching power supply manufacturers in the world. Originated in Taiwan, MEAN WELL offers a wide range of drivers from low-cost to high-end models, that are trusted for their dependability and efficiency.

AC/DC Enclosed

Modular & Rack Power

Din Rail

DC/DC Converter

Open Frame

Battery Charger

Adaptor

VFD

DC/AC Inverter

Indoor LED Driver

Outdoor LED Driver

Dimmable LED Driver

Metal Case LED Driver

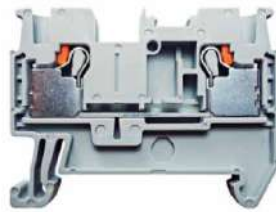

LED Accessory

POWER NEX

Lies under the same group as MEAN WELL SDG Group, PowerNex exists to promote one-stopshop service for power supply components.

Distribution Box

DIN RAIL Terminal Blocks

Terminal Blocks Accessories

Mounting Accessory

Switches

Sensor

Waterproof Connector

AC Power Cord

DC & AC Fan

KSS

KSS, KAI SUH SUH Enterprise Co. Ltd. is ranked No. 1 manufacturer of wiring-accessory industry in Taiwan. KSS offers comprehensive solutions for diverse cable management needs. With precision manufacturing and automatic production line, KSS products are renowned for its quality.

Wiring Ducts

Cable Ties

Cable Markers

Cable Glands

Cable Clamps

Wrapping Bands

Caps

Bushings

Wire Connectors

Tubes

Conduits

Terminal Tool

MAX ASIA

MAX lettering machines is high quality marking machines originated from Japan which is able to produce programmable marking designs at a very high speed. Versatility and portability are the key value of this machine. It's mandatory in any sophisticated wiring necessities.

Lettering Machine

Ink Ribbon

Marking Tape

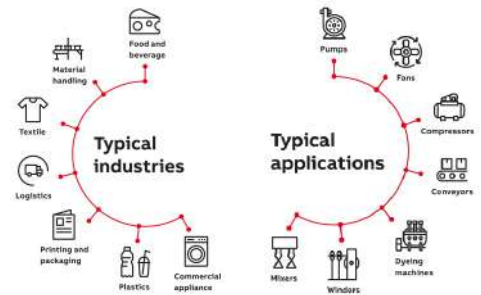

ABB

Drives All For Premium Motor Control

ACS180 – Streamlined Operations in a Compact Design

The ACS180 is a compact, robust, and adaptable variable speed drive (VSD) for applications from 0.75 kW to 22 kW. This easy-to-use compact VSD offers excellent performance and quality at superior value with all essential machinery application features embedded. And as a member of ABB's all-compatible drives portfolio, it shares the same architecture and user interfaces for ease of use.

ACS880 – All New Industrial Drive

Patented Features: Direct Torque Control (OTC)

- Closed-loop torque control without encoder feedback
- Faster response compared to closed loop control
- Best solution for process industry and heavy industrial use

ACS580 – All Compatible General Purpose Drive

Wide Power Range for Broad Range of Industries

- Up to 250kW
- Compatible with all major communication networks
- Bluetooth remote access

Other Offered Series

LV Drive | ACS150, ACS355, ACS550, ACS580, ACS800, ACS850, ACS880

HVAC Drive | ACH550, ACH580

MV Drive | ACS580MV, ACS1000, ACS2000, ACS5000, ACS6000

HITACHI

Variable Frequency Drive

High internal calculation speed improves current control performance. Over-current and over-voltage suppression function to avoid high temperature and malfunction.

WJ 200N

Dual Rating Inverter for VT/CT application.
Capable of Driving IM/PM Motor with
Integrated Braking Circuit

Inverter WJ-C1 Series

The WJ-C1 Series comes with an integrated auto-tuning function for easy sensorless vector control that realizes high starting torque of 200% or greater, suitable for a variety of applications.

Inverter SH1 Series

High Performance Inverter with High Starting
Torque and Built-in Programming Function

Industrial Induction Motor TFO-K Series

Hitachi motor has been developed to be small and lightweight. It is constructed with materials that is highly durable and rust free. Hitachi motor has high energy efficiency and durability

MICNO

Shenzhen MICNO Electric Co., Ltd is a high-tech enterprise specializing in manufacturing Variable Frequency Drive or AC Drive. MICNO offers wide range of inverter with reliable quality, competitive price and excellent after sales service.

KE300 – Sensorless Vector Control Inverter

KE300 Product Features and Highlights

- Vector control. V/f control. soft start functions
- Rapid torque response and high performance
- Low frequency capability

SIKES

Drive Complimentary Devices

SIKES specializes in designing and producing sine wave filter, EMC/EMI filter, harmonic filter, reactor, transformer, resistor and load bank, since 2008.

Braking Unit

Three Phase Harmonic Filter Reactor

Choke

Braking Resistor

EMC Filter

PANASONIC INDUSTRY

Panasonic Industry is a global leader in the development of innovative technologies and solutions for wide-ranging applications in the industrial automation.

PLC (FP7 Series)

PLC (FPX Series)

PLC (FP0R Series)

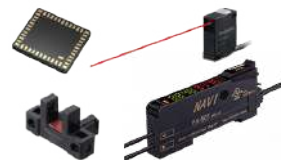

AC Servo Motor

HMI Touch Screen

Laser Markers

Photoelectric Sensors

Proximity Sensors

Temperature Sensors

Motion Sensors

Flow Sensors

Pressure Sensors

Color / Mark Sensors

Safety Sensors

Liquid Sensors

Electrostatic Sensors

WEINTEK

Founded in 1995 and based in Taiwan, Weintek has become a world leader in touchscreen HMI products. Weintek HMI products offer the best price to performance ratio in the market.

iE Series

Featured and designed for easy installation in any industrial control environment

- Ultra-slim 34mm form factor and new color design
- Equipped with powerful Cortex A8 600MHz CPU
- Isolated RS-485 and PCB coating protections

cMT Series

Server/Client HMI Architecture

- Support multiple platforms (Android, Tablets)
- ModBus communication gateway
- Able to work as data center
- Remote accessible
- Safe and secure multi-party collaboration

TOGAMI

Togami magnetic starters, contractors and thermal overload relay have been regularly used in power distribution industries.

SHIMPO

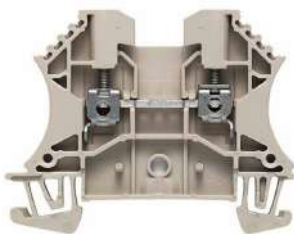

A *Nidec* Group Company
SHIMPO
 All for dreams

Nidec Drive Technology Corporation has established itself as the leading supplier of precision gearing solutions to the industrial automation marketplace. Nidec high precision gearboxes would generally be applied to servo grade applications and utilize either helical planetary and worm gear technologies.

WEIDMULLER

Weidmüller is German family-owned company since 1850. As experienced experts in the field of industrial connectivity, Weidmüller supports customers and partners around the world with products, solutions, and services in the industrial environment of power, signal and data. Weidmüller offers concrete solutions that allow companies to prepare themselves for the “Industrial Internet of Things” and for safe production control from the Cloud.
